Work Experience

Full Stack Developer at Freelancer, Remote

January 2024 — Present

I have successfully created and managed responsive web applications by overseeing the entire software development lifecycle. My role encompassed all phases from designing and developing to testing and deploying. I utilized a diverse set of technologies including Bootstrap, HTML, CSS, AJAX, jQuery, JavaScript, PHP, and MySQL to deliver high-quality, user-centric solutions. My experience includes:-

- Designing: Crafted intuitive, responsive designs that meet client specifications and enhance user experience.
- Developing: Built dynamic and scalable web applications, integrating front-end and back-end technologies.
- Testing: Conducted thorough testing to ensure functionality, performance, and cross-browser compatibility.
- Deploying: Managed deployment processes to ensure smooth transition from development to live environments

Frontend Developer at Elife Limo, San Francisco, USA

August 2022 — December 2023

- Developed and maintained the back-office software for Elife Limo, focusing on creating responsive and user-friendly interfaces.
- Utilized HTML, CSS, and JavaScript to design and implement front-end components, ensuring compatibility across devices and platforms.
- Integrated MySQL for efficient data management, enabling seamless data retrieval and storage within the application.
- Conducted thorough testing to ensure software performance, usability, and responsiveness, contributing to a high-quality user experience.
- Collaborated closely with the development team to refine features and troubleshoot issues, enhancing the overall functionality of the software.

Front End Developer at Paragon Digital Services, Chennai, India

March 2021 — May 2022

- Designed and developed creative banner ads, focusing on visual appeal and audience engagement.
- Implemented responsive design techniques to optimize ads for various devices and screen sizes.
- Utilized JavaScript to create dynamic animations, enhancing interactivity and click-through rates.
- Conducted testing and debugging to ensure smooth performance across different browsers and platforms.

Full Stack Developer at VenX , Visakhapatnam, India

March 2020 — March 2021

- Developed dynamic dashboards using JavaScript, Bootstrap, MySQL, and PHP, ensuring seamless front-end and back-end integration.
- Designed responsive and interactive user interfaces, enhancing usability and user engagement.
- Managed data storage and server-side processing, ensuring reliable performance and data integrity.
- Delivered user-friendly dashboards with effective data visualization for actionable insights.

Front End Developer at Jivox, Bangalore, India

February 2019 — March 2020

- Created creative banner ads in four different sizes, ensuring they were visually appealing and effective across various platforms.
- Implemented responsive design techniques, optimizing ads for diverse devices and screen sizes.
- Developed dynamic animations using JavaScript, enhancing engagement and interactivity in the ads.
- Delivered high-quality ads for prominent clients, including Mazda, Marriott, and L'Oréal, aligning with their brand standards and marketing goals.
